Attn: Mr. Mike LeBreton

**SUBJECT: Aggregate Resources Act Licence # 624984
Part Lots 32-34, Concession 6
Murray Township, Northumberland County**

Request for Minor Site Plan Amendment under sec. 16(2) of the Aggregate Resources Act

Dear Mr. LeBreton;

This letter is in acknowledgement of your written request dated July 30th, 2014 to inset fencing 5 meters along the south and eastern boundary of the west parcel as per the mark up you provided.

The Ministry supports the minor amendment proposed to preserve natural vegetation along these 2 sides of your boundary under the conditions that;

- Demarcation of the licence boundary limit is established in addition to offset fencing
- Tree screens and hedge rows are preserved along these extents
- No change is being made to setback distances and limits of excavation

Please submit 3 copies of your amended site plans depicting the revised fence line in the described locations to the Peterborough District, Ministry of Natural Resources and Forestry office.

Should you require further information or clarification regarding the licence or the legislation please contact me by email at matt.toll@ontario.ca or by phone at (705) 755-3109.

Sincerely,

Matt Toll
